Pricing Details for Online Meetings

The eBLVD license provides 24/7 access to your own "Meeting Center" where you can create and host an unlimited number of collaborative meetings from 1 to 100 concurrent participants (from any computer, tablet, Smartphone) to a 'HOST' PC.

NOTE: The Host / Presenter PC is not counted as a participant.

Participants can be anyone with a Web browser.

There is no limit to the number of meetings or minutes that you use, or the number of unique participants that you invite throughout your license term. The only limitation is that your maximum concurrent participant count cannot exceed the number allowed for your license.
